Using the automatic ticket machines.

1. Find the destination in the list of place names and enter the appropriate code.

2. Ticket price and validity appear in the display.

3. Select ticket type: `1KL` button for 1st class, `⇄` button for day passes (valid for 24 hours), `1/2` for reduced fare (children aged 6-16; Half-Fare travelcard holders; dogs). If you do not press any of these buttons, a full price, 2nd class single ticket will automatically be printed.

4. Insert money.

5. Take ticket and change.

6. Validate multiple-journey tickets and multiple day passes.

7. Direct selection buttons for city and local networks:

Yellow button:	Short distance (see the list);
Blue button:	Single ticket city network (valid 1 hour);
Green button:	Day pass city network (valid 24 hours);
Red button:	Ticket as per specified destination;
Orange button:	Local network (see the list).

8. List of stops in the short-distance and local network area.

9. Special codes for ZVV day pass for all zones, Albis day pass, 9 o'clock day pass, zone upgrades, first-class upgrades, bike tickets, ZVV night supplement, etc.
